Cockneys Adaptable.

The adaptability of the London girl to farm work is equaled by the adaptabillty of London youth (particularly the real Cockney type) to almost any work and any circumstances.

I have known a Cockney, entirely ignorant of machinery, to learn all about a thrashing muchine inside a week, and to be in sole control of it on the eighth day.

And it is well known that some of our smartest cavalrymen are Cock-neys. Young fellows who were never on a horse before become expert riders in an incredibly short time. Whatever else the Cockney may or may not be he is nearly always observant, quick in the uptake and useful with his bands.—London Chronicle.

MAKING GOOD

Don't worry about old age, sound man is good at any age. Keep your body in good condition and you can be as hale and hearty and able to "do your bit" as when you were a young fellow.

Affections of the kidneys and blad-der are among the leading causes of early or helpless age. Keep them clean and the other organs in working condition, and you will have nothing to fear.

Drive the poisonous wastes from the system and avoid uric acid accu-mulations. Take GOLD MEDAL Haarlem Oil Capsules periodically and you will find that you are as good as the next fellow. Your spir-its will be rejuvenated, your muscles trong and your mind keen enough for any task

GOLD MEDAL Haarlem Oil Cap-sules will do the work. But be sure to get the original imported GOLD MEDAL Haarlem Oil Capsules. They are reliable and guaranteed to keep you or your money will be refunded For sale by most druggists. In sealed packages, three sizes.

METHODS OF MARKING MONEY

Officials Trap Peculators Who Dig Nefariously Into the Cash Drawer,

In their surveillance and apprehen sion of suspected persons government secret officers often and it necessars to "mark the money" handled by such persons. There are various metho of so marking the national currency. one of the most novel of which is the pin-prick.

The note to be marked is, say, the 85 silver certificate bearing the vignette of an Indian chief in full re galla of feathers and trappings and presenting a full-face view. With the aid of a pin the secret service man makes two punctures in the bill directly in the pupils of the Indian's To the casual and sometimes eyes. even critical inspector of the note these pin-pricks are invisible. raised to the light, however, the bill will distinctly reveal them.

The markings are complicated by the following process: The pinpoint is applied in the "twist" of the large figure 5 of the two upper corners of the note. These tiny twists do not appear on the "necks" of the two figures 5 that are on both sides of the bottom of the note. The note is now pierced again, this time at the ends of the scrolls on each side of the word "five" in the lower center of the bill. The marking is now complete. In secret it is exhibited to one or more persons for purposes of identification and is then placed in the till or money drawer to which the suspected person

It is said that the pin-pricks will remain perfect for some time. When such bills are produced in court and their markings are explained under oath conviction is practically certain. -Literary Digest.
